

Drive with an eyewitness using the new all-in-one dash cam/sat nav series from Garmin

Garmin DriveCam 76 and CamperCam 795 bring premium navigation technology and high-def video capabilities to everyday and recreational drivers

SOUTHAMPTON, UK./August 10, 2022/Media Alert – Garmin International, Inc., today announced the Garmin DriveCam™ 76 and CamperCam 795 all-in-one sat navs with a built-in, high-definition dash cam¹. Both models feature a sharp 7-inch display, 1080p HD video recording and wide 140-degree field of view to capture a broad picture of the road ahead. Once plugged in, the camera continually records and saves video of detected incidents, serving as an eyewitness behind the wheel. Saved videos are automatically stored in the secure online Vault and drivers can easily view and share² clips using the [Garmin Drive™](#) smartphone app.

“We’re excited about this series of all-in-one sat navs, which combines our best-in-class car and camper navigation features with a sharp, built-in dash cam, giving you confidence that you’ll have video proof of unexpected incidents,” said Dan Bartel, Garmin vice president of global consumer sales. “Whether you’re making the morning commute to work or a trek across the country with the family, these sat navs bring greater peace of mind to your time on the road.”

Thanks to the built-in, high-definition camera, these integrated devices help increase driver awareness with advanced driver assisted notices, including forward collision and lane departure warnings³.

Each camera-assisted sat nav in this series is purpose-built with a feature set tailored for different types of motorists. Garmin recently introduced the **dēzlCam LGV710**, an all-in-one trucking sat nav with built-in dash cam aimed at helping professional truck drivers protect their livelihoods. With the new **Garmin DriveCam 76** and **CamperCam 795**, everyday commuters and camper drivers can benefit from these higher-end camera safety features for more awareness and peace of mind when on the road.

Keep an eye on the drive with the **Garmin DriveCam 76**, Garmin’s best-in-class navigation solution for everyday drivers:

- Use Garmin Voice Assist to control the sat nav and pair with a compatible smartphone, with Bluetooth® technology, to make and take calls
- Environmental Zone Routing gives guidance and warnings about Environmental Zones on the route
- Drive smarter with live traffic, weather reports and fuel price information when paired with the [Garmin Drive app](#)
- Know what’s worth a stop using Tripadvisor® traveler ratings for hotels, restaurants, and attractions
- Reverse with confidence; **Garmin DriveCam 76** is compatible with select Garmin backup cameras (sold separately) to help see behind the vehicle

Plan to make memories with the **CamperCam 795** GPS sat nav designed specifically for camping enthusiasts and families embarking on cross-country adventures with a camper or towable:

- Find great roads options with custom routing⁴ for the size and weight of the camper or trailer
- Drive with greater awareness of potential hazards along the route with alerts for upcoming steep grades, animal crossings, sharp curves and speed changes
- Enjoy Birdseye Satellite Imagery for high-resolution overhead views of the campground or camper park to help with a smooth arrival
- Enhance any trip with preloaded directory of camper parks and services from ACSI™, Campercontact™, Trailer's PARK™ and Tripadvisor® traveller ratings.
- Preloaded Green Guide from MICHELIN®, including pictures, detailed descriptions and ratings, lets you know what's worth a stop.
- Works seamlessly with other Garmin products, including the long-range BC™ 50 series backup cameras to help see behind the vehicle; the Garmin PowerSwitch™ digital switch box for convenient control of the camper's 12-volt electronics and wireless Bluetooth-enabled headsets for high-quality audio on the road (each sold separately)

Today, Garmin also announced the new **Camper 795** GPS sat nav, providing camping enthusiasts with the same leading-edge navigation benefits as the **CamperCam 795**, but removes the built-in dash camera and camera-related features.

Available now, the **Garmin DriveCam 76** has a suggested retail price of €499.99, while the **CamperCam 795** has a suggested retail price of €599.99. The **Camper 795** has a suggested retail price of €449.99. To learn more visit garmin.com/automotive.

Engineered on the inside for life on the outside, Garmin products have revolutionised the automotive industry and become essential to the lives of drivers, commuters and motorists of all types. Committed to designing user-friendly, purpose-built portable navigation solutions that enhance every drive, ride and adventure, Garmin believes every day is an opportunity to innovate and a chance to beat yesterday.
